A LEGACY OF WHAT MATTERS.

Dedicated to excellence for over 100 years, F.A. Wilhelm Construction Co. delivers high-quality work and offers a wide range of construction services and delivery methods.

Building innovation, building momentum, and building sustainable projects that matter requires a team of dreamers with a strong affinity for hard work and determination. Wilhelm's construction professionals turn the conceptual, and sometimes seemingly impossible, into fully completed, innovative spaces where life happens. Whether that life is learning, serving, producing, entertaining, healing, or simply relaxing, Wilhelm excels in managing and constructing environments that best suit the universal need for people to discover and expand our horizons.

The safety and well-being of everyone involved in our projects, including our team members, clients, and stakeholders, are paramount. We strictly adhere to all safety regulations and employ comprehensive safety protocols on all our construction sites. Our commitment to safety ensures a secure working environment throughout the duration of your project.

Exceptional quality and uncompromising safety are woven through everything we do; our people share an unwavering commitment to core values like honesty, integrity, and a spirit of giving to others. Clients have trusted Wilhelm since 1923 - over an entire century - to enhance our community and capture the passion, strength, and endurance of the human spirit reflected in the built environment.

Environmental responsibility is integral to our construction philosophy. We prioritize green building practices, energy-efficient systems, and the use of eco-friendly materials to minimize the environmental impact of all projects carried out. We also understand the significance of timely project delivery, which is why our project management teams excel at efficient planning, resource allocation, and execution to meet project deadlines and ensure smooth coordination with other stakeholders.

Francis A. Wilhelm was a man who established our firm because of a dream to build better buildings and a better life for his family and community. This is still the Wilhelm way. Our dedication to delivering high-quality projects has earned us a reputation for excellence in the industry, and our enduring reputation for honesty, integrity, and industry-leading quality has been built by generations of employees who are driven to serve their communities every day.

At Wilhelm, we stand behind our work. To learn more about our people, projects, and the environments we work, visit our website at FAWilhelm.com.

SAFETY PRIORITY ONE

Safety begins at the top. Management provides the resources and policies, and reinforces our mission so safety is instilled in everyone. Company president, Phil Kenney is actively involved in our company safety program in written communications, training, meetings and helping with inspections to assure the company is backing up ALL safety policies and procedures. Corporate safety directors oversee safety programs and report directly to executive leadership. The Corporate Safety Director is responsible for advising management, superintendents and foremen on relevant regulations and practices concerning safety and health, and together, they ensure this information is communicated throughout our workforce.

OUR PRIORITY ON PEOPLE IS REFLECTED IN OUR SAFETY RECORD.

Our safety is your safety. Wilhelm's exceptional record reflects positively on you and eliminates risk, leaving you to enjoy the progress of your project.

EXPERIENCE MODIFICATION RATE (EMR)*

2024	2023	2022	2021	2020
0.48	0.55	0.61	0.61	0.46

National Average is 1.0

LOST TIME ACCIDENT (LTA)**

2024	2023	2022	2021	2020
0.22	0.21	0	0.18	0.16

Established safety plans & protocols keep our job sites secure for everyone

RECORDABLE RATE***

2024	2023	2022	2021	2020
1.20	0.91	1.13	0.87	1.20

On-going continual improvement and training

NOTES

- * Experience Modification Rate is established by the insurance industry reflecting a company's safety performance relative to all others. An EMR of 1.0 is considered acceptable safety performance. Wilhelm's EMR is well below 1.0 indicating excellent safety performance.
- ** Lost Time Accident is a workplace injury requiring missed work. Wilhelm's LTA is well below the industry average showcasing our unwavering commitment to safety.
- *** Recordable Rate metrics track accidents requiring medical attention. Wilhelm's safety culture and continual safety training are the reasons we out perform the industry with regard to low recordable rate averages.

Wilhelm Construction is a Coalition for Construction Safety (CCS) Certified Contractor and Partner with Indiana OSHA.

HEALTHCARE

At F.A. Wilhelm Construction Co., we understand the critical importance of healthcare construction in providing safe, efficient, and healing environments for patients, medical professionals, and staff. With a deep commitment to the healthcare industry, we have earned a reputation as a trusted partner in delivering high-quality healthcare facilities that prioritize patient care and well-being.

EXPERIENCE AND EXPERTISE

With a century of experience in the construction industry, we have successfully completed a wide range of healthcare construction projects, including hospitals, medical centers, clinics, research laboratories, and specialized healthcare facilities. Our extensive portfolio reflects our expertise in designing and constructing healthcare spaces that adhere to the highest industry standards. F.A. Wilhelm Construction has been fortunate to complete healthcare projects for clients such as IU Health, Eskenazi Health, Community Health Network, Ascension St. Vincent, University of Florida Health, the Glick Eye Institute, and the Roudebush VA Medical Center.

PATIENT-CENTRIC DESIGN

Our healthcare construction projects prioritize patient-centric design to enhance the overall healing experience. We create spaces that promote a sense of calm, comfort, and safety for patients, making their healthcare journey as smooth and stress-free as possible.

COLLABORATION WITH MEDICAL PROFESSIONALS

We actively engage with medical professionals, administrators, and healthcare experts throughout the construction process. By understanding their unique needs and workflows, we design and build healthcare facilities that optimize efficiency and functionality, resulting in improved patient care.

INFECTION CONTROL AND SAFETY MEASURES

Infection control is of paramount importance in healthcare settings. Our team implements rigorous safety measures to prevent the spread of infections during construction. We employ best practices to ensure a clean and safe environment for patients, staff, and visitors.

TIMELY PROJECT DELIVERY

We understand the significance of timely project completion in the healthcare industry. Our project management team excels at efficient planning and execution to ensure that healthcare facilities are operational within the specified time-frame.

F.A. Wilhelm Construction is proud to be at the forefront of healthcare construction, contributing to the advancement of the healthcare industry. If you're looking to partner with a reliable and experienced construction company that will transform your healthcare facilities, please do not hesitate to contact us. Our team is eager to discuss your project and provide tailored solutions that exceed your expectations.
